Frontlets Bible facts: The Bible is the word of the one and only true and living God. People have been led astray by false prophets and false religions for thousands of years. Today, the whole world is under the control of Satan, and he is determined to destroy everyone who does not worship him and follow his commandments. The first four chapters of the Bible contain the history of the world. The historical events recorded in those chapters account for the entire history of the world from the first day of creation to the coming of the Lord. So, the Bible literally changes history and records many facts and events that the world has never heard of, has no record of, or never knew. The Bible is absolutely true and completely infallible. God says so Himself. God's Word confirms all the Bible says about Himself. God's love is like His character. The Bible says the Lord is an enemy of lying, and that all His people should be the same way. The Bible says that God says what He's going to
