## What's New in the OtsAV Free?

The OtsAV Free Edition is a powerful 5 channel beat-mixing system, integrated with a convenient browser, powerful library, and a full station quality system. You can mix any and all video content including television, live performances, movies, TV shows, TV shows and karaoke CDs. OtsAV Free is perfect for discerning users who want to record television or do professional DJing using a dedicated system. You can also use OtsAV Free to edit and broadcast your own TV show or even a personal video blog. Well-suited for DJs, Universities, and Portable DJs, OtsAV Free is the Audio Video Experience designed for you to mix live and pre-recorded audio and video content. OtsAV Free is bundled with a library of about 1.000 professionally mixed songs and videos. Just browse and play the songs you want to mix from your local hard drive, your music collection or from online music stores. You can copy, format, and edit your files before broadcasting. Enhance your content by setting tags, flags, and bookmarks. OtsAV Free also features an easy-to-use rendering engine that offers a smooth video stream that looks like the material you see on MTV, but unlike typical MTV, the video you're looking at is always stabilized and motion-scaled correctly, so you can get a rock solid, fixed "G" (frame) without worrying about motion. With OtsAV Free, there's no need to load a bunch of servers, and you can even run OtsAV Pro on a headless system without sacrificing quality. Can be used as a stand-alone platform or a powerful base for OtsAV Professional. OtsAV Free is what you need to get the job done. WHAT'S NEW: OtsAV Free v2.5 New OtsAV interface new tutorial how to mix karaoke CDs how to mix karaoke CDs New feature: Mixing karaoke CDs on the fly! - Please check the manual and user guide! Thank you for your support! What's New in OtsAV Free: • Fixed the problem of program cutting when adding to playlist - The only program that you can not directly add in list by clicking button and song source will be cut when program is running to adding to playlist. Fixed the problem of IE9 user. After setting video alignment, the play button may be
