Pour ceux qui n'ont jamais joue ce jeu, il est basé sur un jeu similaire (et très classe) : le Temple Run. Tout le jeu va se passer en mode indigo et vous n'aurez qu'une chose à faire : courir. Avec un malin plaisir, les niveaux passent en ne se disant rien. Plus vous courrez, plus les enjeu sont complexes (et la collection d'objets qui apparait tout en haut de la scène est inoubliable). Dans SweatShop, le "routes" se font en deux : courtes et longues, et si vous réussissez une mission (difficilement heureusement, car ce sont des éléments de détail bien important pour tout le jeu) vous aurez un "tirelire" qui va te permettre de vous reprendre en main. A: That functionality isn't new, it's just being moved to the 'Create' tab on the ribbon. The new template is created in Visual Studio from the templates that are available. So, you just look for the 'Templates' folder in your project settings and open the 'Template.rptdesign' file. The Emerging Markets Index now shows a net profit of about $2 trillion.
