Blast away the flesh and extract the gold in this fast-paced action shooter game! Feature Review: You'd never know it by the name, but this is one hell of a fun little game. It's a lot like Clash of Clans with a bunch of really fun elements wrapped around them. There's no big story, but that's probably a good thing. It's too easy to just add this game to your phone and spend 20 minutes playing it every once in a while. It has a drop-the-rock-to-get-points mechanic that feels like it was ripped from Clash of Clans and it has a smooth-pace mechanic that feels like a Match 3 and brings a refreshing take to the genre. The graphics are nice and the animations are good as well. Mmmmmmm, it's like Clans but with a Shape Shifter. Starburst of course, but is that a band? or a fireball? A nice little indie chiptune game that seems to have been a click away for days on end. \*EDITED FOR FLUFF\* Alright, so this game would have been a 10/10 except for the typos. I'm very sorry for that. I can't even really remember what game these were from since I just googled them. I swear I know what game these were from, but my brain can't remember. oops. Ok,

It is available in two editions: Lite and Ultimate. Lite Edition: Assetto Corsa is available in two versions: a regular budget version that limits the installation of the official website, the game's Steam Workshop and the tools, and a paid version that fully supports those features. Ultimate Edition: The Ultimate version is designed for building a stable environment and having full access to all the features of the game, and it also offers an enhanced interface and customization possibilities. The game supports both Ansel-style realistic photography as well as simulated dynamic and fully detailed topographical maps. From open-country to city traffic-crowded roads, the map of the world turns into a playable field of action. Assetto Corsa is available as a fully packaged download in an ISO file, which must be burned to a DVD/CD (SOFT OR CRINKLED, NOT AUDIO CD) and installed in the DVD or CD drive. The installation file also contains a file named "toolbox" to allow the user

Our world has changed. The days of the Explorer and her Mask are over. Forced is an online action game about the last remaining remnants of humanity facing extinction. Play with 3 other survivors as they overcome obstacles and harness the incredible powers of the alien virus. An outline of the game can be found here. How can I play Forced together with friends? You can play multi-player co-op on a number of different platforms. The Xbox Live Edition - The Playstation Store Edition - The Steam Edition - The Windows Edition - On mobile platforms - And a number of other platforms as well. Tell me more about the game. FORCED is an immersive co-op thriller where you play as an explorer attempting to uncover the fate of her friend, trapped on a space station with an alien virus that has turned most of the human race into mutants. With just you, a handful of people and an alien artifact your only choices are simple: fight or die. It is not only you who must think strategically as the aliens spawn all over the station. Your team can only survive if you work together as a team. With the right team, you can save the station, but with a wrong team it might well be the end of you. What can I expect from Forced? Set in a science-fiction setting, players inhabit the role of an Explorer who is trapped on a space station with an alien artifact that she must protect. In co-op, up to 4 players can team up and work together

to overcome challenges, uncover the mysteries of the station and save the world. As players find out, it is not only you who must think strategically as the aliens spawn all over the station. Your team can only survive if you work together as a team. Forced features an excellent story, challenging game-play, eye-catching graphics and an immersive soundtrack that really adds to the overall experience. What is the best part of the game? FORCED allows all players to think and act strategically while playing together, making it one of the best co-op games out there. Each playthrough is completely unique so expect a fresh gameplay experience every time you play. FORCED also has a tight competitive game-play where players can become the best of friends or the best of foes. In my opinion, this is best described by the main character in the opening scene: "Teamwork unlike
