Free Full Version. Activation Code. Windows 7 or 8 or 10 or Vista. Mac OS X Lion or higher. A perfectly free VPN solution that meets all requirements, is easy to use and trustworthy. Easy and safe to use with no need to install any software. Two users can connect at once. Works with all your devices, including Windows, Mac and mobile. All your online connections can be protected. Easy to share a connection with others. Works with Google Chrome and Firefox, and every other browser that supports extensions. VPN Client If you are looking to secure your network connection, you need to know about this exclusive VPN solution. Two user friendly features make LifeVPN the best alternative for VPN users. Security. Easy to use. Connect with one or two users. Easy to share. Coupon Code Feature How VPN usage and service can help? Why use a VPN? Why not? The answers to these common questions lie in the following sections. VPN and Security. VPN and Security All your online activities are kept secure and private, your data is kept confidential and your transactions confidential by any third parties. It is a great help to your business if you are creating a secure intranet. This VPN has been created to give you the best of both worlds, it gives you security that you can trust! You should not be worried about your safety and your network connection with this VPN. It encrypts your online activity and keeps it private. It hides your IP address and keeps your personal information safe. The Internet is a gigantic place and not everyone you may meet knows what you are actually doing. Even though you may be more friendly online, if you look at someone

for that long, they may believe that you are up to no good. Your online security is a lot safer with LifeVPN! You also benefit from privacy as your online activity is kept private with this VPN. This VPN only allows you to connect to approved websites, it cannot connect to any server that does not have access to your IP address. We are all looking for sites that are not listed with the search engines and the best way to connect to these sites is to use a VPN, it protects you and gives you the internet freedom. You can
