```
A: You can't store a max  
value in an int. I think you need to  
store it as a Long. Long maxSize =  
Long.MAX_VALUE; String inputString =  
userInput.getText().toString().trim();  
if(inputString.isEmpty()){ //... }else{  
    Integer input = new  
    Integer(inputString); if(input >  
maxSize){ // Send error to client and or  
do a "reset" as text input back to 0 } }
```
