
Hiren Boot Cd 15.3 Iso [NEW]

very simple and lightweight. Dcid Â .#18: Dialing Up The Fashionably Unfashionable Before you scroll down, please know I don't make any money from this blog. I do it simply as a way to promote underused designers or businesses that fall outside the more conventional fashion industry. Plus, if you want a little fashion info without the fashion industry's huge brand politics and PR spin, this is it. Today's interviewee: Jessica Shafer is a master of adding well-thought design to the most surprising products. She's been creative director at American Apparel since 2008. And she's always looking for something even more unusual to create. The company's stock-in-trade? T-shirts, painted T-shirts, leather T-shirts, "bodyshort" T-shirts and dresses with flouncy sleeves. I sat down with Shafer yesterday to discuss the legacy of American Apparel, and why she thinks some of the company's original design ideas are still resonating so strongly today. Shafer grew up in a generation that shies away from the notion of unique and creative. When she went to college, it was an exercise of conforming: college in a top school, a traditional dress code, and a life focused on what society expected of her. She began to rebel, and took risks: dressing in bizarre fashion at midnight, doing something totally different with her hair, or insisting on finding quality merchandise in the most unlikely places. Her unconventional style and criticism of the fashion industry are part of what has made her so successful. She's the rare designer who was in the fashion business at a time when most people thought of fashion as frivolous. Her energy is a breath of fresh air. She's unafraid to take a risk, and she didn't go into fashion thinking she could create affordable luxury or break the mold of black-and-white fashion. What she made, in her estimation, was a brand that expressed and honored her point of view. She remembers American Apparel's beginnings as an "obsession" as much as she does a business. American Apparel was just a concept on her canvas, although just about everything she's created has been unlike anything else out there. The company was based on a "wow
